

The starting shape we cut from is 1.4" tall x 2.5" wide

This piece is the magnet. The shape would need to cut around this in order to function properly.

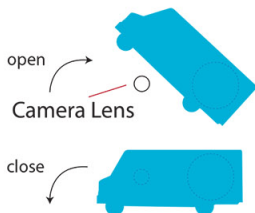

The shaped design will need to fit within the 1.4" x 2.5" area.

The Blue dashed line is the laser cut line.

The print can be full bleed.

The webcam cover can swivel up and down on the magnet to cover the camera lens
